MEMORANDUM FOR: Chief, Exploratory Development
Laboratory Branch

SUBJECT : Screen Evaluation Study

REFERENCE : Bausch & Lomb Report on Rear Projection
Screen Materials Study F.O. 046564

25X1A
25X1A
1. It is requested that a comparative evaluation study be performed on the Old Delft rear projection screen material and the polacost screen materials presently in use at NPIC. [REDACTED] has provided the EDL with three screen samples for evaluation and discussed the project with [REDACTED]

2. On completion of the study it is requested that a recommendation be made as to which screen is most suited for the NPIC application and what features should be looked for in new screen materials.
